

A large, stylized version of the Oxygenix logo is centered in the image. The "O" is blue with three diagonal lines, the "x" is blue with a diagonal line, the "y" is light blue, and "genix" is black. The background is a futuristic cityscape with a large, curved, white structure resembling a hyperbaric chamber or a futuristic bridge, and a large, curved, white structure resembling a hyperbaric chamber or a futuristic bridge.

REVOLUTIONIZE YOUR BODY THROUGH OXYGEN

# Oxygenix

## Hyperbaric Chamber

- ✓ Anion Air Fresh System.
- ✓ LED Lighting Light Inside.
- ✓ Timed Sterilization System(Anti-virus System)(Exclusive Design)
- ✓ Extra Quiet Pressure Relief Valves.(Exclusive Design)

- ✓ Internal and External Pressure Gauge Display.
- ✓ Internal and External Pressure Release Control.
- ✓ IN-OUT Communication System.
- ✓ Wheels at bottom, easy to move.
- ✓ **Big Transparent Window each side.**(Exclusive Design)
- ✓ Internal and External Digital Data Display Screen shows Oxygen Purity, Temperature and Humidity. (Exclusive Design)
- ✓ Smart Door Safety Sensor, operation only allowed to do after door fully closed.(Exclusive Design)
- ✓ Allows user sit or semi-lying inside via a luxurious comfortable chair inside.(Exclusive Design)
- ✓ Combo Multi Function Operating Unit.(includes Air, Oxygen, Anion, Dehumidification and Refrigeration)

## Galaxy 100 Hard Sitting Chamber

1.5ATA

2.0ATA

### Galaxy 100 Hard Sitting Hyperbaric Chamber

*JUST SIT BACK AND  
BREATH*

Coming with a premium folding chair allowing you could sit down or recline inside comfortably.

***Sit-down***

***Recline***

**ALL-in-one Operating Unit**

## OxyGenix Galaxy 100

### Chamber Cabin

Type	Single Seat/Sitting Type
Pressure	1.5ATA/2.0ATA
Size	200x86x153cm
Weight	600kg/700kg
Material	Stainless Steel+Polycarbonate(Germany Bayer)

### Operating Unit

A combo machine includes Oxygen Concentrator+Air Compressor+Cooler+Anion+Sterilizer

Voltage	110V/220V
Power	1,400/1,700W
Size	80x40x90cm
Weight	80kg
Oxygen Flow	<b>10L/min</b>
Oxygen Purity	90-97%
Air Flow	85L/min
Air Filter	DUAL
Anion Function	YES
Cooling Machine	X2 (Dehumidification+Refrigeration)

# ALL-IN-ONE **Oxygenix**

Combination

Easy

Multifunction

- ✓ 10L large oxygen flow capacity.
- ✓ Oxygen flow adjustable.
- ✓ Dehumidifying and Cooling system.
- ✓ Continuous oxygen production, NO need oxygen tank.
- ✓ Double activated carbon filters.
- ✓ Wheels at bottom, easy to move

Oxygen Meter

Water Container

Air Filters

Wheels

All in one machine design, includes

- 1 x Air Compressor
- 1 x 10L Oxygen Concentrator
- 2 x Cooling Machines
- 1 x Anion
- 1 x Anti-virus System

Make all function in one combination by one press!

## Nano Water Ion Technology, Pure and Clean!

*The nano water ion generator will generate the moisture collected in the collected, cooled and high pressurize it to the condensed water droplets to generate nano water ions.*

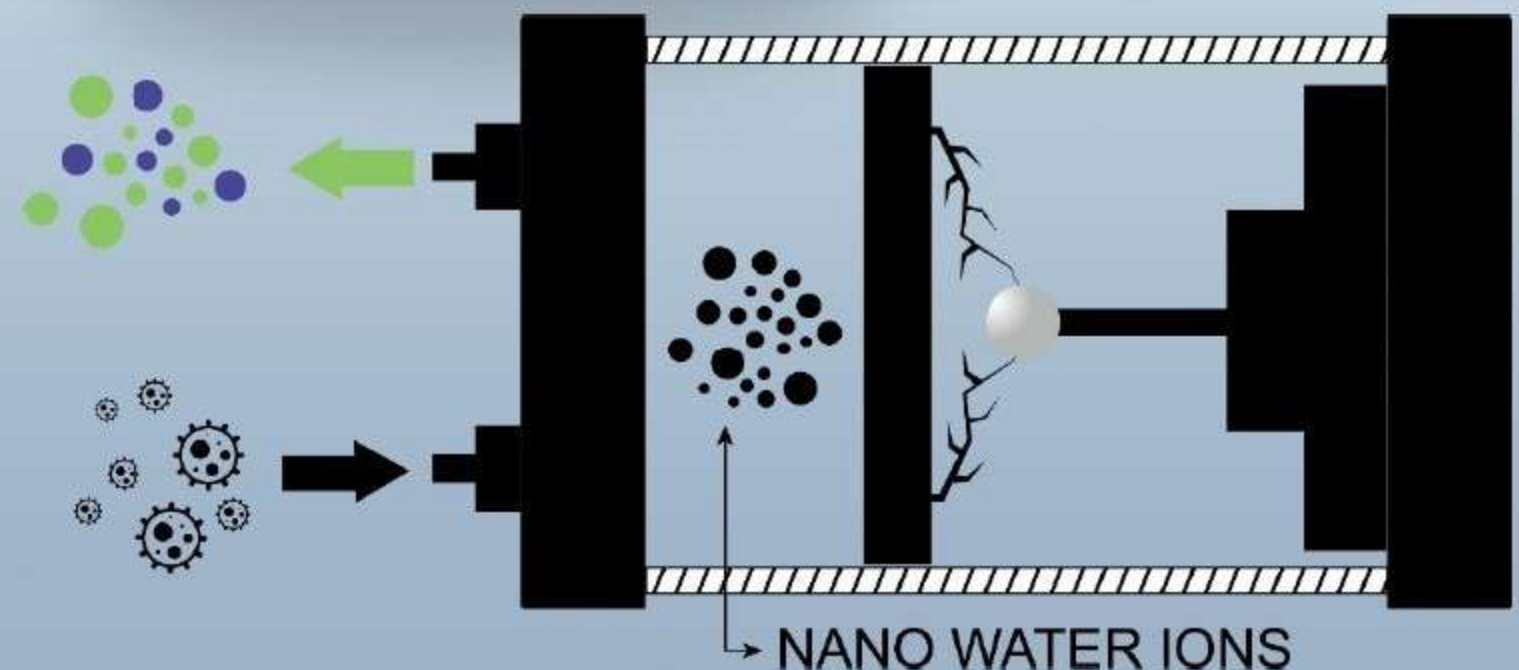

*It is being widely used in Airport and Train Station for public anti-virus solution.*

Nano water ions wrapped by moisture can easily adhere to the surface of various bacteria. Then it allows the large amount of hydrogen oxygen free radicals contained in itself to fully contact with the bacteria, and draws out the hydrogen ions from the bacteria and combines them into water. In this way, various bacteria are inactivated and the effect of germ removal is achieved. In addition to deodorization, nano water ions can also penetrate deep into the fiber and extract hydrogen ions from bacteria that form odor, thus achieving deodorization.

Anti-virus Generator Container

*Virus Sterilization Rate: 99%*
