Vinayaka Institute of Emergency Medical Sciences (ViEMS)

A Premier Institution in Emergency Medicine Education, Services, and Med-Tech Innovation

Vinayaka Institute of Emergency Medical Sciences (ViEMS) is a multifaceted organization dedicated to creating a robust ecosystem for emergency healthcare in India. Functioning as a leading educational institute, an operational emergency services provider, and a key player in medical technology sales and partnerships, ViEMS operates at the intersection of education, service, and innovation.

Core Divisions & Operations

1. Education & Skill Development

ViEMS is a recognized leader in building a skilled workforce for the healthcare sector.

- **NSDC Training Partner:** A registered Training Partner of the National Skill Development Corporation (NSDC) and the Healthcare Sector Skill Council (HSSC), Government of India.
- **Industry-Aligned Training:** Delivers high-quality, industry-relevant training through advanced simulation labs, preparing students for successful careers in emergency response and allied healthcare.
- **Proven Impact:** To date, ViEMS has trained and upskilled over 5,000 candidates under various government and private skill development programs.
- **Academic Partnerships:** In collaboration with the prestigious Tata Institute of Social Sciences (TISS), ViEMS offers UGC-recognized degree programs, including a One-Year PG Diploma in Emergency Medical Services and a B.Sc. in Imaging Technology.

2. Emergency Management & Ambulance Services

ViEMS translates its educational expertise into real-world emergency response.

- The institute actively manages emergency management operations and runs advanced ambulance services in partnership with several reputed organizations across India.
- This operational wing ensures that the skills taught in the classroom are grounded in the practical realities of pre-hospital and emergency care.

3. Medical Technology & Strategic Partnerships

ViEMS is a significant national partner for leading medical technology companies, facilitating the adoption of cutting-edge equipment across India.

- National Sales Partner for Time Medical Systems (Fischer Medical Ventures): Responsible for sales of high-end medical equipment (MRI, X-Ray, Cancer Diagnostics, Hyperbaric Oxygen Chambers) to Government and Private institutions.
- PPP Model Operations Partner with Fischer Medical Ventures: Manages and operates MRI machines on a Public-Private Partnership (PPP) model, with recent projects launched with the Sikkim State Government.
- National Sales Partner for AMTZ: Acts as the sales arm for the Andhra Pradesh MedTech Zone Limited (AMTZ), promoting and selling medical equipment from its registered manufacturers to government accounts.
- National Sales Partner for ZYNA MEDTECH: Handles government sales for Ventilators and Hemodialysis machines.
- Manufacturing & Sales - Oxynova/OxyGenix: ViEMS manufactures and sells Oxygen Hyperbaric Chambers under the brand OxyGenix HBOT in India, through technology partnerships with global leaders like OxyNova (Canada), OxyRevo, OneBase, and Olive HBOT (www.oxygenix.in).

4. Diversified Initiatives: Wellington World School

Demonstrating a commitment to holistic community development, the ViEMS society runs the Wellington World School in Gwalior. This K-12 school, situated on a 5-acre campus with 30,000 sq. ft. of constructed area, provides quality foundational education. (www.wellingtonworldschool.in)

The Vinayaka Institute of Emergency Medical Sciences (ViEMS) is a dynamic and integrated organization that excels in:

- Educating the next generation of emergency healthcare professionals.
- Operating critical emergency and ambulance services.
- Driving the adoption of advanced medical technology through national sales and PPP projects.
- Contributing to community development through foundational education.

By seamlessly connecting education, operations, and technology, ViEMS stands as a unique and vital force in advancing India's emergency medical infrastructure and capabilities.

Alliances and partnerships:

About AMTZ AMTZ is India's premier medical technology park with Common Manufacturing Facilities & Common Scientific Facilities that include specialized laboratories, warehousing, and testing centers such as the Center for Electromagnetic Compatibility and Safety Testing, Center for Biomaterial Testing, Center for 3-D Printing, Centers for Lasers, MRI Super Conducting Magnets, Gamma Irradiation Centre, Mold & Machining Centre, and many other industrial service centers. In the nation's battle against the pandemic, Andhra Pradesh MedTech Zone contributed by producing over 100 ventilators, 500 oxygen concentrators, and 1 million RT PCR kits every day. Many innovations from Andhra Pradesh Medical Technology Zone such as mobile container hospitals, mobile RTPCR vehicles and mobile oxygen plants were sent even to the remotest parts of the country. Built in a record time of 342 days, Andhra Pradesh MedTech Zone showcases modern India as a leader in the medical technology global

About Time Medical

Time Medical is an innovator in the medical diagnostic imaging industry aiming to bring advanced, accessible, and affordable imaging to all populations. With paradigm-shifting technologies, Time Medical developed advanced medical imaging systems and cost-effective service solutions to meet emerging global healthcare needs.

The founding team comes from a strong background of expertise, research and experience at leading universities such as Columbia University, Harvard Medical School and University of Hong Kong.

About IIEMS

Indian Institute of Emergency Medical Services (IIEMS) is a non-profit charitable Organization, having its headquarters in Kerala, India also popularly known as 'God's Own Country'. their international operations are managed by the executive office in Troy, Pennsylvania, USA. We are engaged in conducting world-class training programs in Emergency Medicine and Trauma Care System.

They are a group of dedicated Healthcare Consultants, Instructors, and Specialists from USA, Europe, and India working together for the advancement of emergency medical care for the people of this country.

During the past 8 years, we have trained more than 46,000 healthcare providers (including Doctors, Nurses, Paramedics, and Emergency Medical Technicians) in India. We have a wide network of Regional Training Centres (RTC) across India with a great array of faculties from around the world. Our International faculties are highly experienced and well known in the field of Emergency Medicine. IIEMS is Parent organization for VIEMS & IIEMS is having affiliation with all following organizations.

1. AHA (American heart association): The American Heart Association is a non-profit organization in the United States that fosters appropriate cardiac care in an effort to reduce disability and deaths caused by cardiovascular disease and stroke. It is headquartered in Dallas, Texas. The American Heart Association is a national voluntary health agency whose mission is: "Building healthier lives, free of cardiovascular diseases and stroke." Its motto is "Learn and Live"

2. AREMT (Australasian registry of emergency medical technician): November, 2004 AREMT established as incorporated Company with ASIC registration: ACN 111 074 689 - Australasian Registry of Emergency Medical Technicians. after reviewing the need to have a professional Emergency Medical Service organization for industry medical technicians needing recognition of their qualifications and to support them in ongoing professional training development. After reviewing the US NREMT system, they have developed a registration system closely matching NREMT requirements and procedures, as well as Australasian and International specific EMS registration needs. Additionally, as there were few organizations

across South East Asia and Asia providing the same service, they expanded to South East Asia, China, Philippines, Singapore and as far as the United Kingdom, with the support of regional EMS Educators and Assessors.

- The George Washington University (GW, GWU, or George Washington) is a private, coeducational research university located in the Foggy Bottom neighborhood of Washington, D.C.. The university was chartered by an Act of Congress on February 9, 1821, as the Columbian College in the District of Columbia.[5] In 1904, it changed its name to the George Washington University in honor of George Washington, the first President of the United States. GWU is consistently ranked by The Princeton Review in the top "Most Politically Active" Schools. Many of the university's graduates have gone on to high positions within both the United States Government and in foreign governments. Notable alumni include US Senate Majority Leader Harry Reid, former Secretary of State Colin Powell, former First-Lady

Jacqueline Kennedy, and former US House of Representative Majority Leader Eric Cantor. There are currently four George Washington University alumni serving in the United States Senate, nine serving in the United States House of Representatives, and ten serving as United States ambassadors. Our association with GWU is for conducting International Masters in Emergency Medicine (MEM) in India.

6. Medical Entrepreneurship Development Programme (MEDP)

Programme Objective: Medical Entrepreneurship Development Programme (MEDP) aims at training the graduates and diploma holders in the essentials of conceiving, planning, initiating, and launching an economic activity or an enterprise successfully. MEDP is a structured training programme designed to motivate and develop entrepreneurs in medical field.

Profile of Sr. management'/advisory board

Professional Profile: Mr. Ashish Sharma

A results-driven senior professional and achiever with over 25 years of distinguished leadership across Government Relations, Business Development, and Emergency Management Operations. An MBA with a proven track record of driving growth and excellence in diverse sectors including Healthcare, Social Development, Medical Devices, and Manufacturing.

Core Competencies & Expertise

- Government Relations & Strategic Alliances
- Medical Equipment & Device Sales
- Emergency Management Operations (EMS)
- Business & Project Management
- Human Resource & Employee Relations
- Market Development & Expansion

A Legacy of Impact in Emergency Medical Services (EMS)

Mr. Sharma is a pioneering figure in the development of India's Emergency Medical Services (EMS) ecosystem. His passion for saving lives and strengthening emergency response systems has led to several firsts in the development of EMS in India. As a key

leadership member of the groundbreaking 1-0-8 Emergency Management Service, he played an instrumental role in designing and implementing systems that served nearly half of the country's population, setting a national benchmark for emergency care.

Distinguished Career Trajectory

He has contributed his expertise to a portfolio of high-repute national and international organizations, including:

- Tata Trusts (Social Development)
- Satyam GVK EMRI (Emergency Management & Research Institute)
- HDFC (Life Insurance)
- GRASIM Cement - Aditya Birla Group (Cement Manufacturing)
- AMTZ (Andhra Pradesh MedTech Zone)
- Baker Tilly, USA (Global Advisory)
- Time Medical System (Medical Device Manufacturing & Sales)

His strategic counsel has been sought by multiple State Governments for the planning and execution of critical healthcare projects, underscoring his deep understanding of public health infrastructure and policy.

Sectoral Experience

- Social Development
- Healthcare & Emergency Management
- Medical Device Manufacturing
- Cement Manufacturing
- Life Insurance
- Real Estate & Construction

Mr. Ashish Sharma is a strategic leader whose career is defined by a unique blend of corporate acumen and a profound commitment to public service. He is widely recognized for his foundational contributions to saving lives through scalable emergency response systems and for building successful, sustainable businesses across multiple industries.

Dr. Swaminathan Mahadevan: Dr. SV Mahadevan is one of the internationally acknowledged scientists and EMS leaders of USA. Dr Mahadevan is Director, Stanford Emergency Medicine International & Associate Professor of Surgery

(Emergency Medicine) at Stanford University Medical Center. He is author & Editor of 17 different books and 210 research papers in field of emergency medicine. His students are dispersed worldwide to lead emergency medicine as specialty. His contribution to non-local systems based on his doctoral research have been acclaimed and his books on Emergency medicine have been used as graduate level text books in the US and Indian universities.

Dr. Ravindra Verma: Has achieved many goals in career of Clinical Emergency Practice, Clinical Emergency Training, and Team Leadership in Pre-Hospital Care. Dr Ravindra Verma has completed Post graduation in emergency pre hospital care from Stanford University & Emergency Management and Research Institute, MD (Med) in homoeopathy and post-graduation diploma in emergency medical services from west midland ambulance service and ruby nursing college. He has served many high repute organizations like GVK-EMRI, SIOR and Sanjeevan hospital in emergency medical service. He is international faculty for advance cardiac life support, basic life support and international life support certification courses from American heart association too.
